Census Bureau Announces Guam Economy Grew by 36 Percent in Sales Between 2002 and 2007

Guam's economy generated \$6.2 billion in sales in 2007, up from \$4.6 billion in 2002, according to the U.S. Census Bureau's 2007 Economic Census of Island Areas: Geographic Area Series for Guam.

The economic census profiles Guam's economy every 5 years. In 2007, Guam had 3,143 businesses with paid employees. These businesses employed 52,394 people and accounted for \$1.1 billion in annual payroll. This compares with 2002, when Guam had 2,926 employer businesses, with 43,104 employees and an annual payroll of \$846 million.

The 2007 census data include statistics for Guam and its 19 election districts for businesses with paid employees. Guam is a U.S. territory in the western Pacific Ocean.

Other findings:

- In 2007, the retail trade sector in Guam accounted for \$1.6 billion in sales, employed 8,219 people and paid \$150 million in annual payroll. This compared with 2002, when the sector saw sales of \$1.3 billion, employed 7,402 people and had an annual payroll of \$123 million.
- The largest share of retail sales in Guam was found in general merchandise stores (\$334 million) and food and beverage stores (\$327 million). In 2002, general merchandise stores sales were \$299 million and food and beverage stores sales were \$259 million.
- Businesses in the Tamuning election district reported \$3.6 billion in total sales — more than 57 percent of total sales in 2007, compared with \$2.7 billion in 2002.
- Guam had 193 businesses with 50 or more employees in 2007, representing 6 percent of all businesses. These businesses accounted for 57 percent (\$3.6 billion) of total sales. In 2002, there were 169 businesses with 50 or more employees, accounting for \$2.2 billion in total sales.

These data for Guam are available through the Census Bureau's American FactFinder, an online data tool that allows users to access, filter, manipulate and extract data. Data for the Northern Mariana Islands were released in March 2009. Data for the U.S. Virgin Islands, American Samoa and Puerto Rico will be released between July 2009 and September 2010. More information about the Economic Census of Island Areas is available at <<http://www.census.gov/econ/islandareas/index.html>>.

ECONOMIC CENSUS OF GUAM

PURPOSE

The Economic Census's main goal is to provide periodic comprehensive data on Guam's economic activity and structure. The United States Code, Title 13, authorizes this census and makes responding mandatory. The Government of Guam assists with the census.

COVERAGE

The census covers the following sectors as defined North American Industry Classification System (NAICS):

- 21 Mining
- 22 Utilities
- 23 Construction
- 31-33 Manufacturing
- 42- Wholesale Trade
- 44-45 Retail Trade
- 48-49 Transportation and Warehousing
- 51 Information
- 52 Finance and Insurance
- 53 Real Estate and Rental and Leasing
- 54 Professional, Scientific and Technical Services
- 55 Management of Companies and Enterprises
- 56 Administrative and Support, Waste management and Remediation services
- 61 Educational Services
- 62 Health Care and Social Assistance
- 71 Arts, Entertainment, and Recreation
- 72 Accommodation and Food Services
- 81 Other Services (except Public Administration)

This scope is equivalent to that of the stateside economic census. The 2002 Economic Census was the first census conducted based on NAICS; prior censuses used the standard industrial classification system.

Census forms are mailed to all establishments within the scope of the census that have annual payroll.

CONTENT

All establishments are required to provide data on total sales, receipts, or revenue, kind of business, legal form of organization, employment, annual and first quarter payroll, and class of customer. Data are presented at the 3 to 5 digit NAICS level of detail depending on disclosure protection requirements. Data are also provided at the island total and election district levels of geography.

For 2007, the Census Bureau has added questions at the request of Guam's government. The additional questions are to aid in the production of GDP estimates.

FREQUENCY

The Economic Census is conducted every 5 years, currently for years ending in "2" and "7." Censuses of Manufacturers, Retail trade, Wholesale trade, and some service industries began for 1958 for the 1957 census. The census of construction began for 1973 for the 1972 census. Reported data are for activities taking place throughout the census year.

METHODS

Censuses are conducted using the mailout/mailback methodology. A Memorandum of Agreement between the Census Bureau and the Guam Government outlines the condition under which the census is conducted. The Government of Guam provides input to the census content and helps with publicity.

PRODUCTS

Census products summarize Guam data by kind of business and its election districts. Tabulations include the number of establishments, sales, receipts or revenue, annual payroll, first quarter payroll, and employment. Tabulations also summarize basic information by sales size category, by employment size category and industry composition by legal form of organization. All of these tabulations are available through American FactFinder.

USES

The Department of Interior uses data from the Economic Census to assess economic policy for Guam. The Federal Emergency Management Agency uses data to help in assessment of damages due to natural disasters.

Local governments use census data to assess business activities within their jurisdiction and to estimate the size of economic sectors. The Government of Guam uses estimates to benchmark and weight indexes of industrial production and productivity. The private sector uses the data to forecast general economic conditions.

SPECIAL FEATURES

The Economic Census Provides the only comprehensive source of consistent and comparable economic data available for Guam.

► Data Item: **Flag for number of paid employees for pay period including March 12**

Description: Each data item has a “flag” associated with it to describe any special conditions applicable. Where normal data are shown, the flag field is blank. The following abbreviations and symbols are used with these data:

Valid Values:

Low Value	High Value	Meaning
*		Measure of sampling variability not shown since estimated data not published
-		Zero or rounds to zero
A		Standard error of 100 percent or more
D		Withheld to avoid disclosing data for individual companies; data are included in higher level totals
F		Exceeds 100 percent because data include establishments with payroll exceeding revenue
G		Low noise infusion
H		Medium noise infusion
M		Less than \$500,000
N		Not available or not comparable
Q		Revenue not collected at this level of detail for multiestablishment firms
S		Withheld because estimate did not meet publication standards
V		Represents less than 50 vehicles or .05 percent
X		Not applicable
Y		Disclosure withheld because of insufficient coverage of merchandise lines
Z		Less than half the unit shown
^		Noise infusion range not applicable
a		0 to 19 employees
b		20 to 99 employees
c		100 to 249 employees
e		250 to 499 employees
f		500 to 999 employees
g		1,000 to 2,499 employees
h		2,500 to 4,999 employees
i		5,000 to 9,999 employees
j		10,000 to 24,999 employees
k		25,000 to 49,999 employees
l		50,000 to 99,999 employees
m		100,000 employees or more
p		10 to 19 percent estimated
q		20 to 29 percent estimated
r		Revised
s		Sampling error exceeds 40 percent
t		90 percent or more reporting

u		80 to 89 percent reporting
v		70 to 79 percent reporting
w		60 to 69 percent reporting
x		Less than 60 percent reporting
y		Less than 60 percent reporting
